Capsule Biography

Michelle Lim is an Associate Professor in Law, School of Law, Singapore Management University. Her interdisciplinary scholarship occurs at the intersection between biodiversity conservation and sustainable livelihoods. Lim's work focuses on futures-oriented biodiversity law research aimed at advancing equity and sustainability under conditions of unprecedented environmental change. She is increasingly interested in approaches which allows affective engagement with scholarship and explores ways which challenge the form of scholarship including through creative and imaginative means of expression (e.g. speculative fiction, poetry).

Lim holds a double degree in Science (Ecosystem Management) and Law (First-class Honours) and a PhD on legal and institutional arrangements for transboundary biodiversity conservation at the University of New England, Australia. Prior to joining Singapore Management University, Lim has held positions in Macquarie University, University of Adelaide and the University of Dundee.

Lim is Co-Editor in Chief of the *Review of European, Comparative and International Environmental Law*. She was a fellow on the Global Assessment of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) and an author of the IPBES/IPCC joint workshop report. She sits on the Editorial Board of the *Australian Environment Review* and the Advisory Board of *Ambio*. Lim was awarded the 2016/2017 Law Council of Australia Mahla Pearlman Australian Young Environmental Lawyer of the Year Award and the **2021 Law and Society Association of Australia and New Zealand publication prize for a published scholarly article or book chapter** for the paper: "Extinction: hidden in plain sight—Can stories of 'the last' unearth environmental law's unspeakable truth?." *Griffith Law Review*. 1-32.

Dr Lim has diverse teaching experience spanning the fields of sustainability, environmental, international, commercial and corporate law as well as torts, and ethics.

'Global Assessment'. <https://www.ipbes.net/deliverables/2c-global-assessment>.

□ IPBES is the biodiversity equivalent of the Intergovernmental Panel on Climate Change (IPCC). The IPBES Global Assessment is the first ever intergovernmental assessment on the state of biodiversity and their contributions to people. It is also the first global biodiversity assessment since the Millennium Ecosystem Assessment in 2005. The Assessment was co-produced by biodiversity experts from 50 countries and 134 governments. The Global Assessment involves a systematic review of the academic literature and government documents (approximately 150,000 documents) to develop a global synthesis of the condition of biodiversity and its contributions to people; the issues causing biodiversity loss and the policy options to reverse the trend of unprecedented biodiversity decline.

Grants

Principal Investigator (with Dr Patrick Shi and Pam Wan) awarded \$170,000 from **Singapore Ministry of Sustainability and Environment's SG EcoFund**. The project brings together the Yong Pung How School of Law, Office of Campus, Infrastructure and Services and the Office of the Dean of Students. This project will establish a Nature-Food Futures Learning Precinct at SMU. Located in the city centre, the Precinct will be a hub for hands-on learning and research about native edible plants at the intersection of the Green Plan's Food and Nature goals.

Primary Investigator, Project title: ““Enhancing law students’ sustainability competencies and nature connectedness through hands-on learning with native edibles”, Educational Research Seed Grant, Centre for Teaching Excellence, Singapore Management University, \$9000 SGD 2024-2026 (with Patrick Shi).

Chief Investigator, Project title: “Australia-China Joint Workshop on Biodiversity Law and Govern

ance: Towards a World Living in Harmony with Nature by 2050”, Australian Government National Foundation for Australia-China Relations (with Nengye Liu (Lead), Shawkat Alam and Paul Govind) 2019 – 2020.

‘Nature’s Contribution to People and South Australian Law and Policy’, Barbara Kidman Fellowship, University of Adelaide (AU \$29,916), 2019.

This prestigious 1 year-fellowship is awarded each year to up to 5 recipients from across the University of Adelaide. It is the most lucrative individual fellowship that the University offers.

IPBES Fellows – Future Earth Workshop, Medellín, Colombia, 16-24 March 2018

(18,000€ from Future Earth and co-funding from the Intergovernmental Science-Policy Platform for Biodiversity and Ecosystem Services (IPBES) and the Norwegian Environment Agency). Held at the [6th IPBES Plenary](#) the workshop examined new directions for human-biodiversity relationships with a particular focus on ‘Nature’s Contribution to People’ and the role of culture and the arts. The Plenary is a key part of the IPBES Assessment process as it is there that governments negotiate and review the assessment text.

‘A systems approach for the effective regulation of biodiversity’, New Researcher Grant, Arts, Education and Law Group (AEL), Griffith University (AU\$ 13,000), 2018

I was the chief investigator on this project which is funded through a competitive grant scheme of the AEL Group of Griffith University.

WOMAdelaide, The Planet Talks

WOMAdelaide is one of the world’s leading arts festivals. The festival hosts 500 artists from over 30 countries and welcomes about 20,000 participants on each of the four days it is held in Adelaide, South Australia. The Planet Talks component of WOMAdelaide brings the ‘world’s great thinkers, activists and commentators’ together in panel discussions over the course of the festival.

At the WOMAdelaide Planet Talks on 9 March 2020, I joined globally esteemed Prof. Will Steffen (pioneer of both the concepts of the Anthropocene and planetary boundaries) and Damon Gameau (Australia’s foremost sustainability documentary maker – whose credits include the film 2040 (one of the top five grossing documentaries of all time in Australian cinema)) on the Planet Talks panel discussion: ‘We can still fix this’.

Biodiversity Revisited

Biodiversity Revisited is an initiative of the Luc Hoffmann Institute in collaboration with the World Wildlife Fund (WWF), Future Earth, ETH Zurich, the University of Zurich and University College London. The initiative is the first comprehensive review of the concepts, narratives, governance, science, systems and futures underpinning biodiversity science since the emergence of the term in the 1980s.

The initiative will develop a future agenda for biodiversity research and practice. I was one of 60 **global conservation leaders**, and the only contributor from the legal discipline, appointed to develop the agenda. I was hosted by the Rockefeller Foundation in Bellagio, Italy from 17-21 February 2020 as one of the lead authors of a manuscript on biodiversity futures to be published in *Nature Sustainability* and contributed to the Agenda writing workshop from 23-24 February 2020 at the World Biodiversity Forum, Davos, Switzerland.

Invited speaker, ‘Equitable Sustainability in a Good Anthropocene – What Role for Law?’ (Adelaide University Law Students’ Society Social Justice Breakfast, Café Outside the Square, Adelaide, 28 August 2019).

Invited seminar, ‘Unprecedented Global Biodiversity Decline – What Does This Mean for the Economy, Agriculture and Human Well-being?’ (jointly organised by the South Australian Branch of the Australasian Agricultural and Resource Economics Society (AARES) and the University of Adelaide’s Centre for Global Food and Resources, University of Adelaide, 8 July 2019).

Invited speaker, 'Integrated Implementation of the Sustainable Development Goals- A Systems Approach' (Invited by Prof. Ben Richardson to present in the University of Tasmania Law School Seminar Series, University of Tasmania, Hobart, 27 July 2017).

Invited speaker, 'Can Condominium Arrangements and the Ecosystem Approach Achieve Sustainability in the South China Sea?' (Invited by Prof. Ben Richardson to present in the Institute for Marine and Antarctic Studies Seminar Series, University of Tasmania, Hobart, 26 July 2017).

Invited participant, Motivating and Improving Uncertainty Assessment in Ecosystem Services Modelling to Inform Decisions Workshop. I was the only participant from the legal discipline invited to attend this fully funded workshop organised by **Stanford University's Natural Capital Project**. (SESYNC, University of Maryland, Annapolis, USA, 1-3 November 2016).

Invited speaker, 'Environmental Law in the Anthropocene' (Invited by Justice Michael Wilson of the Supreme Court of Hawaii: 'The Legal Protection of Nature – The Growing Role of Judges in Responding to Climate Change' workshop, **IUCN World Conservation Congress, Hawaii**, USA, 4 September 2016).

Invited plenary speaker: **IUCN World Environmental Law Congress, Rio de Janeiro**, Brazil, 27-30 April 2016.

Invited participant, International Colloquium on Judges and the Environment, Goiania, Brazil, 23-24 April 2016.

Invited discussant, 'Biodiversity and the Sustainable Development Goals', Climate and Sustainability Project Workshop (Strathclyde Centre for Environmental Law and Governance, Glasgow, Scotland, 5 June 2015).
